Does God Heal Today?

Tips and Ideas

1. Remind everyone one about the upcoming small group reunion. If you have not arranged this...then now is the perfect time to do it. What to do and where to meet are good questions to ask at this point.

2. Encourage guest to invite others to the reunion. This is an excellent way to expose others to Alpha.

Last week’s talk was “When and How Should I Tell Others” if anyone missed last session’s talk, they can catch up at http://www.AlphaYourWay.org

Sharing/Discussion Questions

Icebreaker(s)

- Do you know anyone who has been healed miraculously? What was the circumstance?

Pre-Talk Question - 5-10 minutes of discussion before watching the video

- Does God Heal Today?

Starter Questions - Basic questions that usually work to get a discussion going (when needed.)

- What do you think?
- What do you feel?

Basic Discussion Questions

- The video shared a few stories from the Old and New Testament (Bible) about people who were healed. The video goes on to say that healing still applies to us today. What do you think?
- Not everyone we pray for will be healed, but it is important to reassure people of God’s love for them regardless of whether they are healed or not. How can we ensure them?
- How do we make sense of the times God doesn’t heal someone when we ask?
- What are some ways other than physical that God can heal people: emotionally? Mentally? Socially? Financially?

In Depth Discussion Questions

- In the video, Nicky said “This commission to heal is for all of us.” What do you think about ordinary Christians being used by God to heal other people?
- Have you ever prayed for someone to be healed? What happened?
- Have you ever been sick or injured and had someone pray for you to be healed? How did it feel? What happened?

See next page for additional information.
Healing Prayer

Allow enough time at the end of the session to pray for each other.

• You are encouraged to pray for healing. It might be for yourself or someone in the group or for a friend or relative of someone.
• If some people don’t have healing related prayer requests, ask if they would like prayer for anything else.
• Always respect those who don’t want to be prayed for.
• Be prepared for someone who may want to give their life to Christ

If anyone wants to have prayer for anything but didn’t feel comfortable saying so in front of the group, encourage them to talk to you afterwards

Good Points to End on

• Next session’s talk: What About the Church?
